WOODLANDTM

Wood Composite Shutters

The Most Advanced Wood Materials for Building Shutters

WoodLand features the most advanced engineering, combining a solid HDF composite wood core coated with a durable polyresin surface. The polyresin surface is paint free and low maintenance, while the wood core provides superior construction strength.

Since 1983, US Polymers has been extruding polyresin products for the window covering industry. Today, USP continues to develop innovative products & services to meet ever changing market needs.

Why Fabricate Woodland Shutters?

1. Beat the Imports

Grow your shutter business with Woodland's profitable fabrication program. Beat overseas imports- fabricate shutters locally in the USA.

2. Fabrication Made Simple

The Woodland composite shutter is built with prefinished, ready-to-assemble components. All you need to do is cut & assemble to make beautiful shutters.

3. Install Shutters in 7 Days

Local production with prefinished components allows for fast turn around times. You can install Woodland shutters for your customers in as little as 7 days.

4. The Competitive Edge

From low cost shutter components to lightening fast production time! With Woodland you will own the competitive edge in your market, setting the standard for delivery & price.

5. Paint Free Finish

Woodland shutters require absolutely no painting, providing virtually maintenance free shutters.

6. Increase Your Profits

Increase your profits by over 50% compared to buying imported finished shutters even at wholesale prices.

SHUTTERSMART WOODLAND™

Wood Composite Shutters

With Woodland, you offer a custom made
Wood composite shutter that is:

- Low Cost
- High Quality
- Produced in Just Days
- Looks & Feels Like a Traditional Wood Shutter

Fabrication Advantages of WoodLand Composite Shutters

Advantages	WoodLand	Poly Foam
Wider Panel Sizes	Single Panel 34" Bi - Fold Panels 26"	Single Panel 27" requires expensive aluminum reinforcement for wider panels Bi - Fold Panels 24"
Better Surface	Paint Free (VOC Free) Eco-Friendly	Painted Surfaces
Stronger Stiles	Strong Solid Stiles	Require Aluminum & Ruler Insert for Strength
Easy Assembly	Cut Stile, Simple Dowel Assembly	Cut Stile, Ruler & Aluminum. Insert parts, Glue, Clamp & Wait for Glue to Set
Strong Rail Dowel Construction	Triple Dowel Clamp & Release Assembly	Triple Dowel Clamp & Release Assembly
No Panel Cutting	Finished Size Panels	Need to cut panels down to finished size

Eco-Friendly & Green

Made with a Solid HDF Core - Real Wood in an advanced state for strength & durability

Paint Free - Releases no VOCs into the air

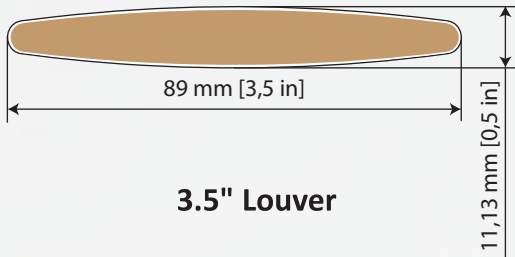

Made from Rapid Growth Trees that enable fast tree replenishment, using 95% of every tree

Biodegradable Wood
